

Welcome AASC

Southern CA Chapter

Presenter:
Veronica S. Perez, MAG, Community Outreach Manager
CareMore Health
September 30, 2019

Today

- CareMore Health is available in 9 states and growing serving over 160,000 patients
- Provides the type of clinical care, support, and time – patients need and want
- High emphasis on person centered care
- Focused on preventive care and high touch care coordination resulting in successful clinical outcomes
- 22 CareMore Care Centers in Southern California

Our holistic approach to care focuses on the whole patient rather than managing episodes of care.

We always engage our populations with the same goals:

HEALTHY

Prevent the onset of chronic disease

CHRONIC

Delay the progression of disease

ACUTE

Avoid hospitalization and ER visits

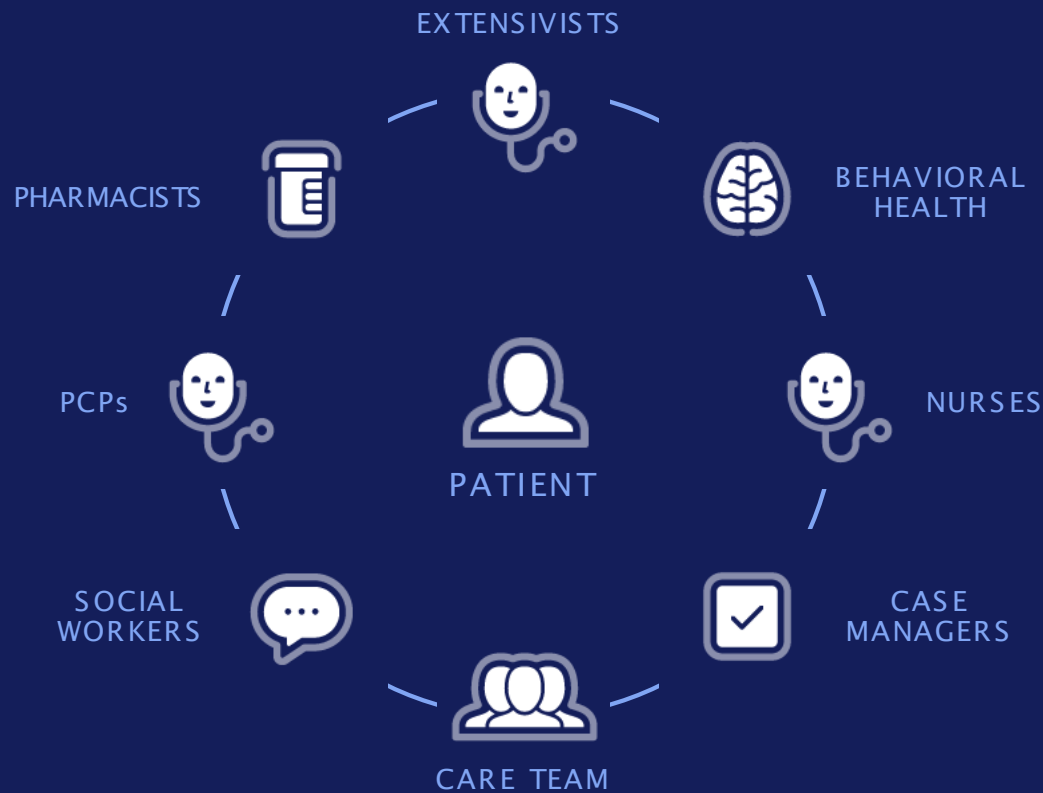

END-OF-LIFE

Maintain the comfort of in-home care

DISEASE MANAGEMENT PROGRAMS | INTEGRATED BEHAVIORAL HEALTH | TRANSPORTATION SOLUTIONS
PHARMACY SOLUTIONS | IN-HOUSE SPECIALISTS | MOBILE ACUTE CARE | UTILIZATION MANAGEMENT

Filling in the gaps

Our clinicians coordinate around our patients to fill in gaps in care

We go beyond our walls to meet people where we can do the most good

CARE CENTERS
Multidisciplinary brick-and-mortar hubs for coordinated care

VIRTUAL CARE
Reach people in their homes, and enhance capabilities in Care Centers

MOBILE CARE
Bring care teams directly to people's homes (including skilled nursing or assisted living facilities)

TRADITIONAL SETTINGS
We work with clinicians in hospitals and other acute settings to help our patients transition back to their homes.

CareMore Care Centers

Chronic Disease Management

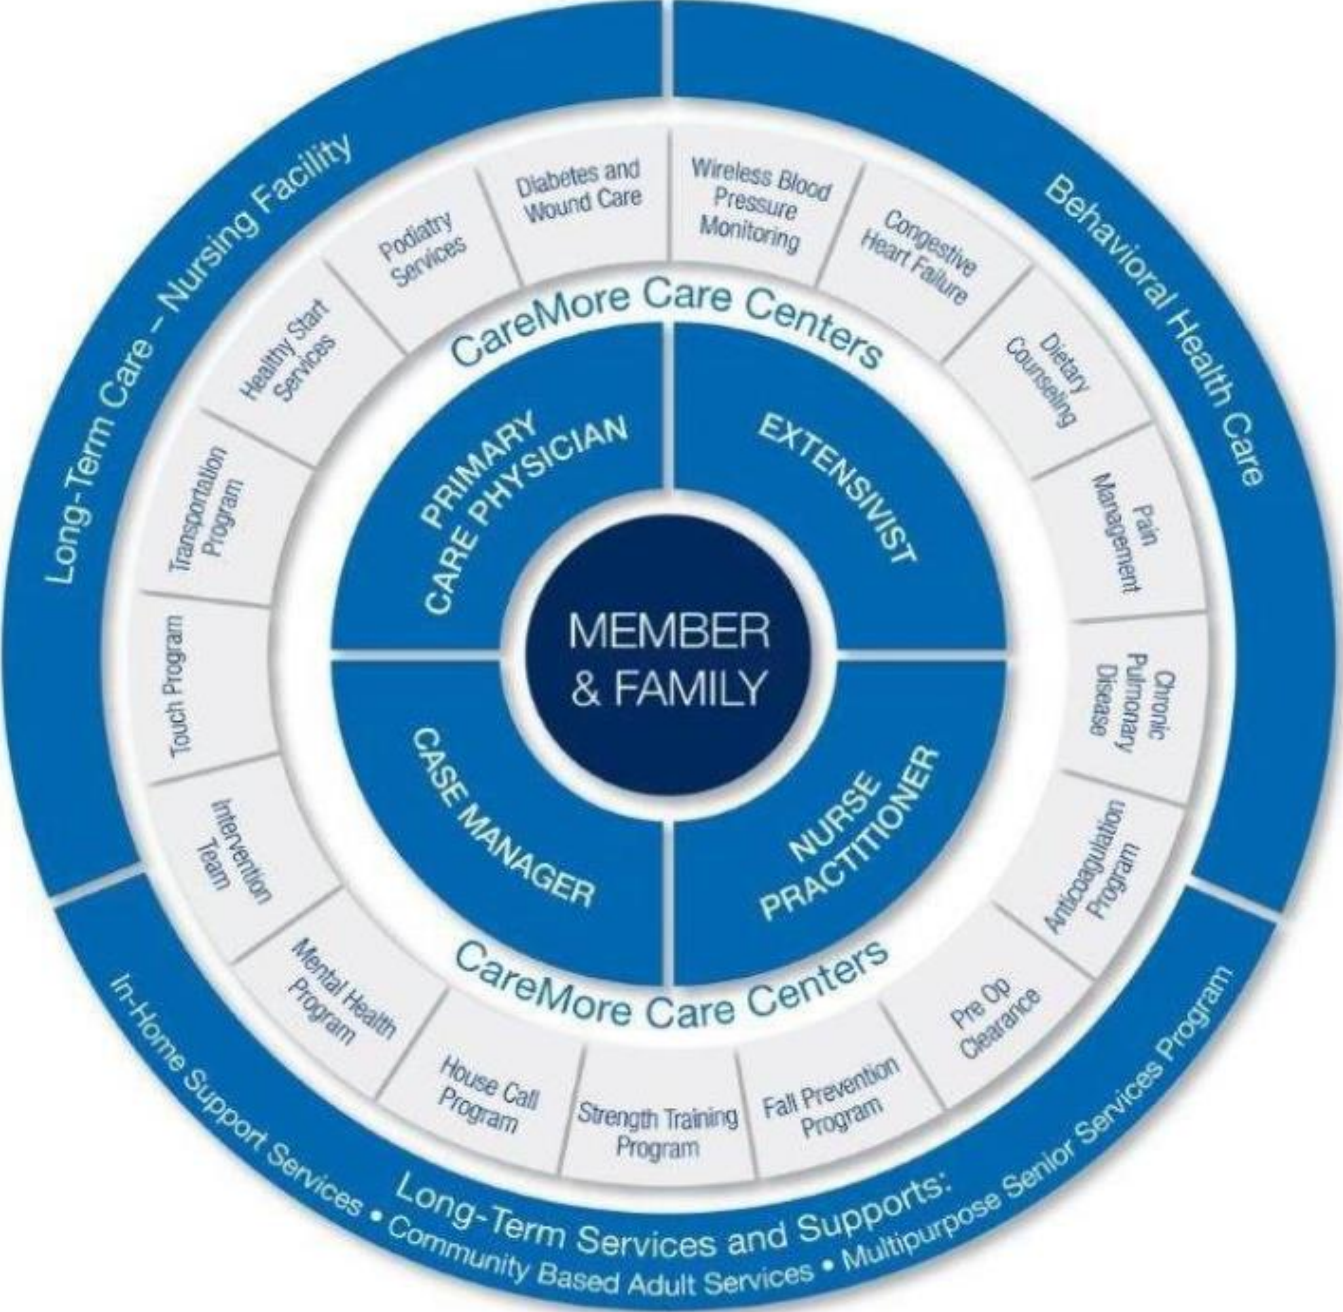

- Heart -High Blood Pressure /CHF
- Diabetes
- COPD
- ESRD

And... much more

- Routine foot care
